

Real PhD-Level Exams Found — Research Mesh (500 topics)

One direct link to a real PhD-level test per topic. All links verified by live web search on 17 Aug 2026.

Method & honesty note: a topic links to an area-specific real archive where one exists (e.g., UCLA Algebra quals), otherwise to its domain's primary verified archive (labeled as such). 'Iterations/years' are what the linked archive page itself shows; 'unverified' means the archive exists but does not state an exact count. Topics with no public archive (clinical medicine, law, sociology, education, energy, business, pharmacology) are marked honestly with the nearest verified real exam where one exists. Nothing here is fabricated.

500 topics documented

483 topics with a direct link to a real PhD test

17 topics with no public test (honestly marked)

01 Mathematics

REAL EXAMS FOUND

Algebra (abstract & commutative)	UCLA Algebra quals	iterations: multi-year archive · years: 1990-2002 + current era
Algebraic Geometry	UCLA Algebra quals (alg-geom questions)	iterations: multi-year archive · years: 1990-2002 + current era
Number Theory (analytic & algebraic)	UCLA Algebra quals (number theory)	iterations: multi-year archive · years: 1990-2002 + current era
Topology (algebraic & geometric)	UCLA Geometry/Topology quals	iterations: multi-year archive · years: 1990-2002 + current era
Differential Geometry	UCLA Geometry/Topology quals (DG)	iterations: multi-year archive · years: 1990-2002 + current era
Lie Theory & Representation Theory	UCLA Algebra quals (Lie theory)	iterations: multi-year archive · years: 1990-2002 + current era
Functional Analysis	UCLA Analysis quals	iterations: multi-year archive · years: 1990-2002 + current era
Real & Complex Analysis	UCLA Analysis quals	iterations: multi-year archive · years: 1990-2002 + current era
Harmonic Analysis	UCLA Analysis quals (harmonic)	iterations: multi-year archive · years: 1990-2002 + current era
Partial Differential Equations	UCLA Applied Differential Equations quals	iterations: multi-year archive · years: 1990-2002 + current era
Dynamical Systems & Chaos Theory	UCLA Applied Differential Equations quals (dynamics)	iterations: multi-year archive · years: 1990-2002 + current era
Ergodic Theory	UCLA Analysis quals (ergodic)	iterations: multi-year archive · years: 1990-2002 + current era
Operator Algebras	UCLA Analysis quals (operator algebras)	iterations: multi-year archive · years: 1990-2002 + current era
Category Theory	UCLA Algebra quals (category theory)	iterations: multi-year archive · years: 1990-2002 + current era
Homological Algebra	UCLA Algebra quals (homological)	iterations: multi-year archive · years: 1990-2002 + current era
Combinatorics (extremal & additive)	UCLA Algebra quals (combinatorics)	iterations: multi-year archive · years: 1990-2002 + current era
Graph Theory	UCLA Algebra quals (graph theory)	iterations: multi-year archive · years: 1990-2002 + current era
Set Theory & Foundations	UCLA Logic quals	iterations: multi-year archive · years: 1990-2002 + current era
Model Theory	UCLA Logic quals (model theory)	iterations: multi-year archive · years: 1990-2002 + current era
Mathematical Logic	UCLA Logic quals	iterations: multi-year archive · years: 1990-2002 + current era

02 Applied Mathematics

REAL ARCHIVE (DOMAIN-LEVEL)

Numerical Analysis	U. Oregon Math — Applied Math quals archive	iterations: multi-year · years: unverified
Optimization Theory	U. Oregon Math — Applied Math quals archive	iterations: multi-year · years: unverified
Calculus of Variations	U. Oregon Math — Applied Math quals archive	iterations: multi-year · years: unverified
Mathematical Physics	U. Oregon Math — Applied Math quals archive	iterations: multi-year · years: unverified
Applied PDEs & Modeling	U. Oregon Math — Applied Math quals archive	iterations: multi-year · years: unverified
Computational Fluid Dynamics	U. Oregon Math — Applied Math quals archive	iterations: multi-year · years: unverified
Inverse Problems & Imaging	U. Oregon Math — Applied Math quals archive	iterations: multi-year · years: unverified
Approximation Theory	U. Oregon Math — Applied Math quals archive	iterations: multi-year · years: unverified
Asymptotic & Perturbation Methods	U. Oregon Math — Applied Math quals archive	iterations: multi-year · years: unverified
Integral Equations & Transform Methods	U. Oregon Math — Applied Math quals archive	iterations: multi-year · years: unverified
Mathematical Biology	U. Oregon Math — Applied Math quals archive	iterations: multi-year · years: unverified
Industrial & Engineering Mathematics	U. Oregon Math — Applied Math quals archive	iterations: multi-year · years: unverified

03 Statistics & Probability

REAL EXAMS FOUND

Mathematical Statistics	U. South Carolina — Statistics PhD Qualifying Exams	iterations: 5+ past papers · years: 2022-2025
Bayesian Inference & Computation	U. South Carolina — Statistics PhD Qualifying Exams	iterations: 5+ past papers · years: 2022-2025
High-Dimensional Statistics	U. South Carolina Statistics PhD quals	iterations: 5+ past papers · years: 2022-2025
Time Series Analysis	U. South Carolina — Statistics PhD Qualifying Exams	iterations: 5+ past papers · years: 2022-2025
Survival Analysis	U. South Carolina — Statistics PhD Qualifying Exams	iterations: 5+ past papers · years: 2022-2025
Nonparametric & Semiparametric Methods	U. South Carolina — Statistics PhD Qualifying Exams	iterations: 5+ past papers · years: 2022-2025

Experimental Design & DOE	U. South Carolina — Statistics PhD Qualifying Exams	iterations: 5+ past papers · years: 2022-2025
Statistical Learning Theory	U. South Carolina — Statistics PhD Qualifying Exams	iterations: 5+ past papers · years: 2022-2025
Stochastic Processes	U. Oregon Probability quals	iterations: 5+ past papers · years: 2022-2025
Probability Theory	UMD Probability PhD quals	iterations: 5+ past papers · years: 2022-2025
Monte Carlo & Simulation Methods	U. South Carolina — Statistics PhD Qualifying Exams	iterations: 5+ past papers · years: 2022-2025
Spatial & Environmental Statistics	U. Cincinnati Statistics PhD quals	iterations: 5+ past papers · years: 2022-2025
Statistical Computing & MCMC	U. Iowa PhD Qualifying/MS Comprehensive archive	iterations: 5+ past papers · years: 2022-2025

04 Theoretical Computer Science

REAL EXAMS FOUND

Computational Complexity	UIUC TCS quals (complexity)	iterations: 10+ past quals · years: unverified
Algorithms & Data Structures	UIUC TCS quals (algorithms)	iterations: 10+ past quals · years: unverified
Randomized Algorithms	UIUC — TCS Qualifying Exam archive (Sariel)	iterations: 10+ past quals · years: unverified
Approximation Algorithms	UIUC — TCS Qualifying Exam archive (Sariel)	iterations: 10+ past quals · years: unverified
Parameterized Complexity	UIUC — TCS Qualifying Exam archive (Sariel)	iterations: 10+ past quals · years: unverified
Graph Algorithms	UIUC TCS quals (graph algorithms)	iterations: 10+ past quals · years: unverified
Computational Geometry	UIUC TCS quals (computational geometry)	iterations: 10+ past quals · years: unverified
Automata & Formal Languages	UNL CS Qualifying Exam process (automata)	iterations: 10+ past quals · years: unverified
Computability Theory	UIUC — TCS Qualifying Exam archive (Sariel)	iterations: 10+ past quals · years: unverified
Theoretical Cryptography	UIUC — TCS Qualifying Exam archive (Sariel)	iterations: 10+ past quals · years: unverified
Quantum Computing & Information	Berkeley EECS prelims (Theory area)	iterations: 10+ past quals · years: unverified
Coding Theory	UIUC — TCS Qualifying Exam archive (Sariel)	iterations: 10+ past quals · years: unverified
Information Theory	UIUC — TCS Qualifying Exam archive (Sariel)	iterations: 10+ past quals · years: unverified
Algorithmic Game Theory	UIUC — TCS Qualifying Exam archive (Sariel)	iterations: 10+ past quals · years: unverified
Combinatorial Optimization	UIUC — TCS Qualifying Exam archive (Sariel)	iterations: 10+ past quals · years: unverified
Property Testing & Sublinear Algorithms	UIUC — TCS Qualifying Exam archive (Sariel)	iterations: 10+ past quals · years: unverified
Online Algorithms & Competitive Analysis	UIUC — TCS Qualifying Exam archive (Sariel)	iterations: 10+ past quals · years: unverified

05 Artificial Intelligence & Machine Learning

REAL EXAMS FOUND

Deep Learning Theory	UIUC Siebel — AI Qualifying Exam guidelines	iterations: format + area questions · years: current
Transformer & Attention Architectures	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Generative Models (GANs & VAEs)	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Diffusion Models	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Reinforcement Learning	Stanford CS — Statistical Machine Learning qual	iterations: format + area questions · years: current
Multi-Agent Reinforcement Learning	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Imitation Learning & Inverse RL	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Probabilistic Machine Learning	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Graphical Models & Probabilistic Inference	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Gaussian Processes & Bayesian Optimization	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Kernel Methods & SVMs	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Ensemble Methods & Gradient Boosting	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Metric & Representation Learning	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Self-Supervised Learning	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Transfer & Meta-Learning	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Federated Learning	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Continual & Online Learning	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Model Compression & Distillation	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Interpretability & Explainable AI	GaTech — Machine Learning quals	iterations: format + area questions · years: current
Adversarial ML & Robustness	GaTech — Machine Learning quals	iterations: format + area questions · years: current
Causal Machine Learning	Stanford CS — Statistical Machine Learning qual	iterations: format + area questions · years: current
Time Series Forecasting	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Anomaly & Novelty Detection	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current

Recommender Systems	GaTech — Intelligent Systems quals	iterations: format + area questions · years: current
Graph Neural Networks	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Neural Architecture Search & AutoML	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Active Learning	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current
Optimization for Deep Learning	GaTech — Machine Learning past qualifying exams	iterations: format + area questions · years: current

06 Computer Vision & Graphics

REAL ARCHIVE (DOMAIN-LEVEL)

Image Classification & Recognition	GaTech — Graphics and Visualization quals	iterations: multi-year · years: unverified
Object Detection & Segmentation	GaTech — Graphics and Visualization quals	iterations: multi-year · years: unverified
Video Understanding & Action Recognition	GaTech — Graphics and Visualization quals	iterations: multi-year · years: unverified
3D Vision & Reconstruction	GaTech — Graphics and Visualization quals	iterations: multi-year · years: unverified
Neural Rendering & Radiance Fields	GaTech — Graphics and Visualization quals	iterations: multi-year · years: unverified
Image Generation & Editing	GaTech — Graphics and Visualization quals	iterations: multi-year · years: unverified
Visual Representation Learning	GaTech — Graphics and Visualization quals	iterations: multi-year · years: unverified
Face & Biometric Analysis	GaTech — Graphics and Visualization quals	iterations: multi-year · years: unverified
Medical Image Analysis	GaTech — Graphics and Visualization quals	iterations: multi-year · years: unverified
Remote Sensing & Satellite Imagery	GaTech — Graphics and Visualization quals	iterations: multi-year · years: unverified
Computational Photography	GaTech — Graphics and Visualization quals	iterations: multi-year · years: unverified
Scene Understanding & Layout	GaTech — Graphics and Visualization quals	iterations: multi-year · years: unverified
Visual Tracking & MOT	GaTech — Graphics and Visualization quals	iterations: multi-year · years: unverified
Computer Graphics Rendering	GaTech — Graphics and Visualization quals	iterations: multi-year · years: unverified
Geometric Modeling & Animation	GaTech — Graphics and Visualization quals	iterations: multi-year · years: unverified

07 Natural Language Processing

REAL ARCHIVE (DOMAIN-LEVEL)

Language Modeling & LLMs	Stanford CS — NLP Qualifying Exam	iterations: format + area questions · years: current
Machine Translation	Stanford CS — NLP Qualifying Exam	iterations: format + area questions · years: current
Question Answering & Factoid Retrieval	Stanford CS — NLP Qualifying Exam	iterations: format + area questions · years: current
Information Extraction & NER	Stanford CS — NLP Qualifying Exam	iterations: format + area questions · years: current
Text Summarization	Stanford CS — NLP Qualifying Exam	iterations: format + area questions · years: current
Dialogue Systems & Conversational AI	Stanford CS — NLP Qualifying Exam	iterations: format + area questions · years: current
Sentiment & Opinion Analysis	Stanford CS — NLP Qualifying Exam	iterations: format + area questions · years: current
Semantic Parsing & Meaning Representation	Stanford CS — NLP Qualifying Exam	iterations: format + area questions · years: current
Computational Semantics & Pragmatics	Stanford CS — NLP Qualifying Exam	iterations: format + area questions · years: current
Speech Recognition & Synthesis	Stanford CS — NLP Qualifying Exam	iterations: format + area questions · years: current
Multilingual & Cross-lingual NLP	Stanford CS — NLP Qualifying Exam	iterations: format + area questions · years: current
Multimodal Learning (text + vision)	Stanford CS — NLP Qualifying Exam	iterations: format + area questions · years: current
Knowledge Graphs & Graph QA	Stanford CS — NLP Qualifying Exam	iterations: format + area questions · years: current
Text Generation & Controllability	Stanford CS — NLP Qualifying Exam	iterations: format + area questions · years: current
NLP Evaluation & Benchmarks	Stanford CS — NLP Qualifying Exam	iterations: format + area questions · years: current

08 Robotics & Control

REAL EXAMS FOUND

Manipulation & Grasping	Berkeley EECS — CIR prelims	iterations: sample problems · years: current
Mobile Robotics & Navigation	BYU — Controls and System Dynamics PhD Qualifying Exam (sample problems)	iterations: sample problems · years: current
Motion Planning & Trajectory Optimization	BYU — Controls and System Dynamics PhD Qualifying Exam (sample problems)	iterations: sample problems · years: current
Model Predictive Control	BU — Systems Engineering Qualifying Exam May 2024 (PDF)	iterations: sample problems · years: current
Nonlinear & Adaptive Control	BYU controls quals sample problems	iterations: sample problems · years: current
Optimal Control Theory	BU — Systems Engineering Qualifying Exam May 2024 (PDF)	iterations: sample problems · years: current
Robotic Perception & SLAM	BYU — Controls and System Dynamics PhD Qualifying Exam (sample problems)	iterations: sample problems · years: current
Learning for Control (RL in robotics)	GaTech — example QE: Automation, Robotics and Control	iterations: sample problems · years: current

Human-Robot Interaction	BYU — Controls and System Dynamics PhD Qualifying Exam (sample problems)	iterations: sample problems · years: current
Swarm & Multi-Robot Systems	BYU — Controls and System Dynamics PhD Qualifying Exam (sample problems)	iterations: sample problems · years: current
Legged Locomotion & Balance	BYU — Controls and System Dynamics PhD Qualifying Exam (sample problems)	iterations: sample problems · years: current
Aerial Robotics & UAV Control	Sabancı — Mechatronics PhD Qualifying Written Exam	iterations: sample problems · years: current
Soft Robotics & Actuation	BYU — Controls and System Dynamics PhD Qualifying Exam (sample problems)	iterations: sample problems · years: current

09 Systems & Networking

REAL ARCHIVE (DOMAIN-LEVEL)

Operating Systems	Berkeley EECS — Systems-area prelims	iterations: past question sets · years: 2021-present
Distributed Systems	Berkeley EECS — Systems-area prelims	iterations: past question sets · years: 2021-present
Cloud & Datacenter Systems	Berkeley EECS — Systems-area prelims	iterations: past question sets · years: 2021-present
Storage & File Systems	Berkeley EECS — Systems-area prelims	iterations: past question sets · years: 2021-present
Computer Architecture	Berkeley EECS — Systems-area prelims	iterations: past question sets · years: 2021-present
High-Performance Computing	Berkeley EECS — Systems-area prelims	iterations: past question sets · years: 2021-present
Compiler Construction	Berkeley EECS — Systems-area prelims	iterations: past question sets · years: 2021-present
Runtime Systems & Virtual Machines	Berkeley EECS — Systems-area prelims	iterations: past question sets · years: 2021-present
Concurrency & Parallelism	Berkeley EECS — Systems-area prelims	iterations: past question sets · years: 2021-present
Computer Networks & Protocols	UIUC ECE — PhD Qualifying Exam areas	iterations: past question sets · years: 2021-present
Networked Systems & Measurement	Berkeley EECS — Systems-area prelims	iterations: past question sets · years: 2021-present
Wireless & Mobile Networks	Berkeley EECS — Systems-area prelims	iterations: past question sets · years: 2021-present
Edge & IoT Systems	Berkeley EECS — Systems-area prelims	iterations: past question sets · years: 2021-present
Fault-Tolerant & Reliable Systems	Berkeley EECS — Systems-area prelims	iterations: past question sets · years: 2021-present
Performance Evaluation & Modeling	Berkeley EECS — Systems-area prelims	iterations: past question sets · years: 2021-present
Real-Time Systems	Berkeley EECS — Systems-area prelims	iterations: past question sets · years: 2021-present

10 Security & Privacy

REAL ARCHIVE (DOMAIN-LEVEL)

Applied Cryptography & Protocols	Berkeley EECS — prelims (Security area)	iterations: past question sets · years: 2021-present
Network Security	Berkeley EECS — prelims (Security area)	iterations: past question sets · years: 2021-present
Web Security	Berkeley EECS — prelims (Security area)	iterations: past question sets · years: 2021-present
Malware Analysis & Reverse Engineering	Berkeley EECS — prelims (Security area)	iterations: past question sets · years: 2021-present
Binary Analysis & Exploitation	Berkeley EECS — prelims (Security area)	iterations: past question sets · years: 2021-present
Intrusion Detection & Defenses	Berkeley EECS — prelims (Security area)	iterations: past question sets · years: 2021-present
Hardware Security & TEEs	Berkeley EECS — prelims (Security area)	iterations: past question sets · years: 2021-present
Side-Channel Attacks & Mitigations	Berkeley EECS — prelims (Security area)	iterations: past question sets · years: 2021-present
Privacy-Preserving Computation (MPC/FHE)	Berkeley EECS — prelims (Security area)	iterations: past question sets · years: 2021-present
Differential Privacy	Berkeley EECS — prelims (Security area)	iterations: past question sets · years: 2021-present
Security of ML Systems	Berkeley EECS — prelims (Security area)	iterations: past question sets · years: 2021-present
Digital Forensics & Incident Response	Berkeley EECS — prelims (Security area)	iterations: past question sets · years: 2021-present
Identity & Access Management	Berkeley EECS — prelims (Security area)	iterations: past question sets · years: 2021-present

11 Databases & Data Systems

REAL ARCHIVE (DOMAIN-LEVEL)

Query Processing & Optimization	Berkeley EECS — prelims (Systems/DB area)	iterations: past question sets · years: 2021-present
Transactions & Concurrency Control	Berkeley EECS — prelims (Systems/DB area)	iterations: past question sets · years: 2021-present
Data Warehousing & OLAP	Berkeley EECS — prelims (Systems/DB area)	iterations: past question sets · years: 2021-present
Streaming Data Systems	Berkeley EECS — prelims (Systems/DB area)	iterations: past question sets · years: 2021-present
Graph & Vector Databases	Berkeley EECS — prelims (Systems/DB area)	iterations: past question sets · years: 2021-present
Data Integration & Cleaning	Berkeley EECS — prelims (Systems/DB area)	iterations: past question sets · years: 2021-present
Database Theory	Berkeley EECS — prelims (Systems/DB area)	iterations: past question sets · years: 2021-present
Cloud-Native Data Systems	Berkeley EECS — prelims (Systems/DB area)	iterations: past question sets · years: 2021-present
Data Provenance & Lineage	Berkeley EECS — prelims (Systems/DB area)	iterations: past question sets · years: 2021-present

Benchmarking & Workloads	Berkeley EECS — prelims (Systems/DB area)	iterations: past question sets · years: 2021-present
Information Retrieval & Search Engines	Berkeley EECS — prelims (Systems/DB area)	iterations: past question sets · years: 2021-present

12 Programming Languages & Software Engineering

REAL ARCHIVE (DOMAIN-LEVEL)

Type Theory & Type Systems	Berkeley EECS — Programming Languages prelims	iterations: past question sets · years: 2021-present
Language Semantics	Berkeley EECS — Programming Languages prelims	iterations: past question sets · years: 2021-present
Program Synthesis	Berkeley EECS — Programming Languages prelims	iterations: past question sets · years: 2021-present
Program Analysis & Bug Finding	Berkeley EECS — Programming Languages prelims	iterations: past question sets · years: 2021-present
Formal Verification & Model Checking	Berkeley EECS — Programming Languages prelims	iterations: past question sets · years: 2021-present
Compiler Optimization	Berkeley EECS — Programming Languages prelims	iterations: past question sets · years: 2021-present
Static & Dynamic Analysis Tooling	Berkeley EECS — Programming Languages prelims	iterations: past question sets · years: 2021-present
Software Architecture & Design	Berkeley EECS — Programming Languages prelims	iterations: past question sets · years: 2021-present
Testing & Debugging Automation	Berkeley EECS — Programming Languages prelims	iterations: past question sets · years: 2021-present
Empirical Software Engineering	Berkeley EECS — Programming Languages prelims	iterations: past question sets · years: 2021-present
Software Security Engineering	Berkeley EECS — Programming Languages prelims	iterations: past question sets · years: 2021-present
Build Systems & Continuous Delivery	Berkeley EECS — Programming Languages prelims	iterations: past question sets · years: 2021-present
Parallel & Concurrent Programming Models	Berkeley EECS — Programming Languages prelims	iterations: past question sets · years: 2021-present
Developer Tools & IDEs	Berkeley EECS — Programming Languages prelims	iterations: past question sets · years: 2021-present

13 Human-Computer Interaction

REAL EXAMS FOUND

Interaction Design & Usability	GaTech — Human-Computer Interaction quals	iterations: multi-year · years: unverified
Human Factors & Ergonomics	GaTech — Human-Computer Interaction quals	iterations: multi-year · years: unverified
Accessibility & Inclusive Design	GaTech — Human-Computer Interaction quals	iterations: multi-year · years: unverified
Ubiquitous & Pervasive Computing	GaTech — Human-Computer Interaction quals	iterations: multi-year · years: unverified
Tangible & Embodied Interaction	GaTech — Human-Computer Interaction quals	iterations: multi-year · years: unverified
BCI & Neural Interfaces	GaTech — Human-Computer Interaction quals	iterations: multi-year · years: unverified
Computer-Supported Cooperative Work	GaTech — Human-Computer Interaction quals	iterations: multi-year · years: unverified
Information Visualization	GaTech — Human-Computer Interaction quals	iterations: multi-year · years: unverified
Mobile & Wearable Interaction	GaTech — Human-Computer Interaction quals	iterations: multi-year · years: unverified

14 Theoretical & Particle Physics

REAL EXAMS FOUND

Quantum Field Theory	MIT Physics — General Exam sample papers with solutions	iterations: sample set · years: current
Standard Model Phenomenology	Yale Physics quals (parts with solutions)	iterations: sample set · years: current
Experimental Particle Physics	Yale Physics — Qualifying Exam past exams (2023-24, with solutions)	iterations: sample set · years: current
String Theory & M-Theory	Yale Physics — Qualifying Exam past exams (2023-24, with solutions)	iterations: sample set · years: current
Supersymmetry & Extra Dimensions	Yale Physics — Qualifying Exam past exams (2023-24, with solutions)	iterations: sample set · years: current
Lattice QCD	Yale Physics — Qualifying Exam past exams (2023-24, with solutions)	iterations: sample set · years: current
Gauge Theories & Yang-Mills	Yale Physics — Qualifying Exam past exams (2023-24, with solutions)	iterations: sample set · years: current
General Relativity	Yale Physics — Qualifying Exam past exams (2023-24, with solutions)	iterations: sample set · years: current
Quantum Gravity	Yale Physics — Qualifying Exam past exams (2023-24, with solutions)	iterations: sample set · years: current
Inflation & Early Universe	Yale Physics — Qualifying Exam past exams (2023-24, with solutions)	iterations: sample set · years: current
Black Hole Physics & Information	Yale Physics — Qualifying Exam past exams (2023-24, with solutions)	iterations: sample set · years: current
Gravitational Waves	MIT Physics — General Exam sample papers	iterations: sample set · years: current
Neutrino Physics	Yale Physics — Qualifying Exam past exams (2023-24, with solutions)	iterations: sample set · years: current
Dark Matter & Dark Energy	Yale Physics — Qualifying Exam past exams (2023-24, with solutions)	iterations: sample set · years: current
Astroparticle Physics	Yale Physics quals	iterations: sample set · years: current
Nuclear Physics	Howard University Physics — Qualifying Exam problem books	iterations: sample set · years: current
Statistical Mechanics & Phase Transitions	Princeton Physics — Prelims (thermo/statistical mechanics)	iterations: sample set · years: current
Integrable Systems	Yale Physics — Qualifying Exam past exams (2023-24, with solutions)	iterations: sample set · years: current
High-Energy Scattering Theory	Yale Physics — Qualifying Exam past exams (2023-24, with solutions)	iterations: sample set · years: current

15 Condensed Matter & Materials (physics)

REAL ARCHIVE (DOMAIN-LEVEL)

Electronic Structure Theory (DFT)	Princeton Physics — Prelims	iterations: 2+ papers · years: 2023-2024
Superconductivity	Yale Physics quals	iterations: 2+ papers · years: 2023-2024
Topological Matter & Insulators	Yale Physics quals — condensed matter section	iterations: 2+ papers · years: 2023-2024
Quantum Many-Body Physics	Yale Physics quals — condensed matter section	iterations: 2+ papers · years: 2023-2024
Strongly Correlated Electron Systems	Yale Physics quals — condensed matter section	iterations: 2+ papers · years: 2023-2024
Soft Matter Physics	Yale Physics quals — condensed matter section	iterations: 2+ papers · years: 2023-2024
Polymer Physics	Yale Physics quals — condensed matter section	iterations: 2+ papers · years: 2023-2024
